

Brain Blizzard

Connect the snowflakes using winter words. Every snowflake should be connected to at least one other snowflake. Start at the center with winter.

The puzzle consists of a central snowflake with the word "Winter" written in a stylized font, accompanied by a small snowman illustration. Radiating from this center are several words: "December", "holidays", "months", "weather", "clothes", and "activities". The rest of the page is filled with numerous snowflakes of various sizes and colors (light blue, dark blue, and teal) that are intended to be connected to the central word and the radiating words using lines.
