

## What Animals Need to Live

Animals are living things. What do animals need to live?

Animals need *food* to live. Some animals eat plants. Some animals eat other animals.

Animals need *water* to live. Animals can get water from rivers, streams, and lakes.

Animals need *air* to live. Some animals use lungs to breathe. Some animals use gills to breathe.

Animals need *shelter* to live. A shelter is a safe place for the animals to stay.
