

Autumn

The nights are chilly. People are putting on sweaters and coats. Farmers are busy. Autumn is here. What happens in autumn?

In autumn, leaves change color.

Maple leaves turn red. Oak leaves turn brown. Ginkgo leaves turn yellow. The forest is colorful.

In autumn, things fall to the ground. Leaves fall to the ground. Acorns fall to the ground. Chestnuts fall to the ground. The ground is colorful.

In autumn, the crops ripen. Pumpkins turn orange. Corn turns yellow. Apples turn red. The fields are colorful. The crops are ready to harvest.
