

Animals in Spring

It's spring in the forest.
The weather is warm.
Many animals are born in
spring.

Baby bears are called cubs. The mother bear takes care of her cubs. She teaches them how to hunt.

Baby birds are called chicks. The mother bird takes care of her chicks. She teaches them how to fly.

Baby deer are called fawns. The mother deer takes care of her fawns. She teaches them how to be safe.
