It's wintertime. The weather is cold. People are keeping warm. What happens in winter?

In winter, water freezes. Snow covers the ground. Frost covers the windows. Ice covers the pond. Icicles hang from the roof.

In winter, people dress warm. They wear sweaters and coats on their bodies. They wear gloves on their hands. They wear boots on their feet. They wear hats on their heads. They wear scarves around their necks.

In winter, people have fun outside. They go skating on icy ponds. They go sledding on snowy hills. They go skiing on snowy mountains. They have snowball fights and make snowmen.
